DETAILED ACTION

Receipt is acknowledged of amendment, remarks and IDS filed on 12/6/10. Claims 7-12 have been added as per applicants' amendment dated 12/28/10. Claims 1-12 are pending in the application.

In view of remarks the rejection of claims 1-6 under 112, first paragraph is withdrawn. In view of the amendment, the rejection of claim 4 under 112, second paragraph is hereby withdrawn.

The following new ground of rejection is necessitated by the amendment.

Claim Rejections - 35 USC § 112

Claims 1-12 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. **This is new matter rejection.**

There is no support in the specification for claim 1 (a) mixing oil phase comprising wax". Support at paragraph bridging pages 5-6 is for waxes. See also original claim 1.

There is no support for claim 2, wherein the oil-soluble polymer or oil-dispersible polymer is a copolymer of maleic anhydride an isopropyl maleate **or** olefin **monomer** having between 30 and 45 carbon atoms. The support in the specification at page 4, line 6 is for copolymers of maleic anhydride an isopropyl maleate **and** olefin **monomers** having between 30 and 45 carbon atoms.

Art Unit: 1619

There is no support at page 3 for the weight percent of oil-soluble polymer or oil-dispersible polymer being 0.5-7 % by weight claimed in claim 9. The support is for 0.1 to 10% by weight. The support at page 3 is for inorganic pigment and not pigment since pigment can be organic also (claim 9).

The support for claim 12 is for example 1 only and this example is drawn to specific waxes which are carnauba wax, ozokerite wax, paraffin wax and bees wax and oil-soluble or dispersible polymer being tricontyl PVP and the fiber being rayon fiber and the pigment being black oxide.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
